Draft-deed Legal Aid Desk articles of association

Status: Decision-making

Dear GMA,

At the last GMA, we approved the proposed amendments to our Legal Aid Desks articles of incorporation. Now, the notary also requires us to have the draft deed they have prepared approved by the GMA. In principle, this deed corresponds to the amendments we proposed at that time, but it's important to read it carefully nonetheless. We hope everything is to your satisfaction, that the document is approved, and that we can return to the notary as soon as possible to finalize the amendment to the articles of association.

Unfortunately, due to both time constraints and the judicial character of the document, we were unable to translate the draft deed. Our apologies for this inconvenience.

The draft deed can be found in the attachment to this document.

With comradely regards,
B81
